7 Victorias at a 1980's Northern California Regional meet in San Jose, CA

## President's message

It seems like I just finished writing the 1<sup>st</sup> quarter's President's message. Again, I would like to THANK Lee Paulus for giving the Victoria Association all of the VA plaques that you received with the last issue of the Bustle. Due to issues with mailing the plaques overseas, our international members were sent Victoria Association decals instead. I would like to thank Chuck Christensen for helping get the Bustle ready to mail.

On April 7, 2023, the Victoria Association Board had a board meeting over Zoom.

We reviewed the minutes from the last board meeting, had a treasury report, and a membership report. The Association currently has 217 members. That number includes 12 international members. Ed has done a fantastic job emailing and calling members who did not renew, to ask them to renew. The board discussed how we move forward with developing a email group so that we can send out the Bustle by email. We are also changing who receives membership applications and renewals. Now John Hooper will receive them. John is looking in to setting up a PayPal account to help members pay their dues. The board plans on having a Board meeting every quarter.

### ***The Victoria Association needs a Bustle editor.***

*I do not have time to do all the things the VA president needs to do and also be the editor. The bustle is produced 4 times a year and provides the only means of communication among the Association's members. Each edition of the bustle is between 8 to 12 pages in length. **Someone please step up and become the Bustle editor.***

### **Adaline and the Victoria Association plaque.**

We were delighted to receive the Victoria Association Logo Plaque that Lee Paulus had made. Many thanks to him!

We pondered how to display this plaque on our '31 Victoria, "Adeline" and decided to display the Victoria Association plaque above our license plate. Joe created a mount that holds the Model A Museum insignia and the Victoria Association Plaque.

In 2016, "Adeline" took up residence with our '28 Special Coupe and our '31 Standard Roadster. Her former owner and fellow club member, Bill Milholland, restored her and entered her in MARC's Touring Class judging in 2010, at which time she received a MARC of Excellence. We love Model A touring, and "Adeline" has taken us almost 30,000 miles to events by MARC, MAFCA, and MAFFI Model A Day as well as Grand Indiana Auto Tours, Sweet Home Alabama tours and Michigan Roundups. No trailering for her....touring along US and state

highways and byways have shown us the best of America. It truly is the journey as much as the destination. She is a proud member of the MARC Mileage Program, as are her sisters. In 40 years of touring, our A's have garnered a total of almost 180,000 miles with Pam (aka "This Lady Drives A Model A") at the wheel while Joe, who is vision-impaired, is the ace mechanic who keeps our A's running in tip-top shape.

Brewster green in body color, "Adeline's" driveline consists of an inserted "A" engine with a police head, Mitchell synchronized transmission and overdrive and is equipped with turn signals, alternator, and LED lights for safety on the road.

We look forward to many more miles of touring along Model A highways!

Joe & Pam Baxter's 1931 Victoria "Adeline"

Hi Bill,

Thank you for your email. I have just received in the post this copy of the Bustle with a decal included. Postage either way is now very expensive when compared to what we were paying a few years ago.

Yes I am very happy to have The Bustle emailed to me.

My Victoria is a leather back which I imported from Pennsylvania in 2008. It was in the process of being hot-rodded with my interest being with the body only because the chassis was hotrod. My son purchased the chassis and associated parts from me. So, I have a body shell and I have been purchasing the items I don't have as they become available. Most of the original wood came with the body including some new items which were not all correct to the original. At present I am looking for the inside rear window moulding plus a lot of information, such as, Are the rear side window regulators the same as a Fordor sedan? (no, they are only for Victoria) If not I will be looking for these as well. I have used the information from the Bustle and purchased the seat frames from Bert's. My membership of the Victoria Association has already been beneficial with the seat frames because I would like to return the car to as per original.

Regards,

George Spriggs, Christchurch, New Zealand

*The Victoria Bustle needs more stories about your Victorias. We just need 3 or 3 paragraphs and of course pictures.*

Chuck (Christensen, VA technical director),

My early Leatherback has an issue with the driver's window. As you drive along the window unwinds, dropping about 1/2" (never noticed it lowering any farther.)

I continually need to raise the window as I continue the drive.

Solution????

Thank you for all you do for our members!

Response on window riser by chuck

I suspect that the springs on the window regulator have weakened over time as one possibility. Or wear on the ends of the regulator arms or on the window track itself. The driver's side window is probably run down more frequently and would develop wear more than the other window. I believe that the smaller gear is available as a replacement but rather hard to replace. Not certain what else might be the problem.

### **Victoria Door Alignment From the Ford Barn 11/2022**

Coachstaff (these are peoples online names)

Restoring my 1931 Victoria and both doors don't align with the raised reveal at the door handle area. They are 3/8" lower than the rear window reveal. I've removed all the shims before painting the car and cannot align the doors now. I started at the firewall cowl area with a shim and the hood fits ok. The door alignment gaps at the front hinges are ok and match the hood reveal. How do I raise the back of the door up 3/8"? The Victoria's wooden frame runs the length of the body and seems to lack the flexibility that my roadster has with its various blocks.

---

J. W. Hash

add a shim at the rear of the cowl where the two-carriage bolts are. then tighten down the front cowl bolts. it will tilt the cowl and lift the rear of the door.

---

Bob Bidonde

To fine tune the alignment after shimming the cowl, I have double edge razor blades under the door hinges

---

Kevin in NJ

So that dovetail is the alignment point, or part of that alignment of the doors.

The pot metal sliders must be in proper shape and they must slide with moderate force of one finger. I have seen some pretty poor condition original sliders on restored cars. If the wrong reproduction parts are used the door will not close properly and it can damage the male dovetail.

Originally they also made offset dovetails to address alignment issues.

I am speaking from my experience with a cabriolet and what I have seen with sedans. I am not familiar with Vicky door posts to comment further about how the dove tail is located. On the 68c they are screwed to the wood and you have to position them properly when building the body. If I remember correctly, the sedans are spot welded to the post.

In any event, the dovetails are critical to the function of the body. They set the door position at the rear. They also prevent the door from beating the body to death as the body flexes with normal driving.

A&L dovetails parts are close to correct and should have correct springs. I cannot speak to other reproduction parts because I do not have experience with them.

---

Bob Bidonde

When the doors are properly aligned, the dovetails should slide directly into their receptacles. The dovetails should not be raising / lowering the doors into alignment. In my opinion, the dovetails keep the door from bouncing when the car is underway.

---

Rotorwrench

Chassis frames flex and bend over many years of use and door hinges can be tweaked if too much downward pressure is applied anywhere near the rear of the door. A person has to check for both types of bend before adjusting.

### **Information request from 2/2023 Bustle**

Hi Bill, 2/10/2023

Do you know of a local source, or a club member, who has the capability to restore/rebuild the front door window regulators on a Vicky? Thanks, John

#### **Answer**

Window regulator I had mine repaired by a guy in Placerville Ca. about 4 or 5 years ago. I don't recall his name; however, I do remember that his contact information was provided by Steve Becker at Bert's Model "A" Center (800) 321-1931.

#### **Searching**

VA member, Bill McElroy (lincolnm9@aol.com) is seeking information and location of a Brewster Green and Black Steelback Victoria that was restored in 1971 by a friend of his. The restorer's family is looking for the Victoria. The last time Bill saw the Vitoria was in 2002 at an auction in Medina, Ohio. The sellers name was Clifford Kovacic. At the time of the auction, it had apple green wheels and whitewall tires. The spare tire is in the back. The green paint had

started to fade on the Vicky by the time of the auction. It still had its Senior award from the Penn-Ohio Model A Ford Club in 1971 on the radiator. The steelback Vicky was a real stunner in her prime. Bill thinks the car went to the Dayton, Ohio area.

**FOR SALE:** 1931 Ford Model A Victoria Leatherback. Chicle & Copra Drab with straw pinstripe, black fenders, wide whitewalls, straw powder coated wheels. Standard 3-speed with 2013 Mitchell overdrive. Engine stock, 6V, no mods, probably rebuilt years ago. Interior olive green, probably older LeBaron Bonney. Fixed seats, driver's moved back 2". The tires are WW Firestone from 2015, low mileage, new tubes, spare is a new Blackwall, grey full car dust cover. Nothing missing in or out. Has inside visors, vacuum wiper and back flower vases, seat lap belts and rear curtain. Kill switch under the seat, excellent bumpers and lights, Motometer, two taillights, no side curtains, door pockets, new fuel shutoff valve, no rear cargo box, running boards are good. Includes original driveshaft, various parts, 2 toolboxes of parts, fabric top is waterproof - replaced 2015, been driven from NE Oregon to Tacoma WA and back over the Cascades. Great driver and parade car. Joe Kresse La Grande Oregon 541-962-5230, email [kressej@gmail.com](mailto:kressej@gmail.com) for more photos.

**For Sale;** 1931 Ford Model A Victoria Leather back, Ford Maroon/Black exterior and tan mohair interior. Model A engine and 3-Speed Manual Transmission in good condition. Body and chassis are fully restored. Interior is not installed. Includes upholstery for interior, headliner, door panels, and roof top material, all need to be installed. Has modern front seats and no rear seat assembly. Comes with extra engine, transmission, and wheel. Needs front bumper and rubber running boards. Car is drivable \$15,000

Please call Rich Gajewski, 469-576-8739 Carrollton, TX

#### **Ford Barn ad**

Site name – Henry Ford

Cabriolet 68c 400a Victoria window regulator. \$200 Very good condition and performs well. Contact [wvufansfl@aol.com](mailto:wvufansfl@aol.com) thanks.

Original vacuum wiper motor 31 slant windshield sedan. Really nice condition other than original paint is worn shaft does turn. \$175 contact [wvufansfl@aol.com](mailto:wvufansfl@aol.com) thanks

### **Address changes**

If you move, be sure to notify the Victoria Association Membership chairman Ed Greany of your new address!! ([crest25@verizon.net](mailto:crest25@verizon.net))

Also, if you change your email address, please let Ed know about the change.

Bill Cilker (editor) is looking to contact any member that has a Victoria with original interior in any condition or pictures of original interiors for use on the Victoria Supplement of the Restoration Guidelines.

If any Victoria Association member would like to have the Bustle emailed to them instead of getting it by mail, please contact Ed Greany ([crest25@verizon.net](mailto:crest25@verizon.net)) and let him know. You will get the pictures in color.

The International Model A Ford Victoria Association is a body style chapter of the Model A Ford Club of America (MAFCA) and a region of the Model A Restorers Club (MARC). The association was founded in 1986 at Frisco, Texas by Charlie Viosca. The purpose of the association is to aid the membership in the authentic restoration of the Model A Ford A-190 Victoria body style. To achieve the purpose this quarterly newsletter is published for the association membership. The intent is to furnish accurate and complete information concerning the Model A Ford Victoria body style. Permission to reprint from this publication is expressly given provided acknowledgement and credit is given to the author and to the publication and no changes are made to the original article.
