

INTERNATIONAL VICTORIA ASSOCIATION

August 6, 1986

Lake Geneva is over, it was a lot of fun. Enjoyed the cars, the people, all there was to do and the trip up there and back. We took the back roads and saw country I hadn't seen since I was a kid. I have to say that the state of Wisconsin is beautiful. Didn't see one farm house that was in dis-repair nor did I see one with junk piled all around. The people of that state should be proud of it.

There were many Victorias there. Before going to Lake Geneva, I asked in the news letter for members to let me know if they were going and we could have a meeting. I only got two replies and one phone call so I didn't plan a meeting. After seeing the Vickies and running into members, I decided we should try to have a meeting. So I started talking up a breakfast to everyone I could find and by word of mouth and help from other members, we did have a breakfast meeting. We signed up 32 members and there were over 40 people there. We expected about 10 to 12. I must say that it was fun and informative. We now have 62 Vickie members.

One good bit of news is that Patti Jones volunteered to do the computer work. What we need to do is inform her of where we can purchase parts for the Vickie. For instance, if you know that the top wood can be bought from ----- please write her. I know there are several places to purchase wood kits but we need to feed it to Patti and when someone asks, we can dig it out and inform the person. The wood is just one example. If you know where to purchase anything for the Vickie, please write to Patti. Patti Jones, 2543 Westgate Ave., San Jose, Ca. 95125. Patti's husband David is an ardent Vickie fan. Let me know for the news letter.

I must say at this point that we need much help in getting this club on the right track and going strong. It is said that only 10% of the members participate in any endeavor. Believe me if this is true, this club will not make it. Please, all of you write to me with information and I'll pass it on to Patti or you can go direct to her.

At the top of this letter, I put a name for the club. This was discussed at the meeting but since we have a Canadian & a member from Australia, I thought it would be nice to make it International. Also someone suggested the "club" should be dropped for something more than just another club. This name, International Victoria Association is just a suggestion, until I have suggestions from all of you. If I get enough suggestions, I'll take a vote on a name. This will be in a future letter. If I don't get any suggestions, I'll leave it as above.

I am enclosing a Victoria owner information and data sheet. This was suggested by Sandy Pedersen and Ed Hildwein. This is for club use only and if you do not want to answer any of the information, leave any objectional part blank.

Up through the end of the year, there will be no dues. I have been operating from donated stamps. As you can see, we are growing and next year, dues will be necessary. I will have to pay for stamps, copies of the news letter, envelopes etc. I received donations for stamps from most at Lake Geneva and have 42 dollars to purchase stamps and whatever we need. I will try to use the copy machine where I worked but will have to purchase paper. I thank all of you that contributed to the stamp fund. It is a big help.

Howard Barnes is a member of the Dallas Model A Ford Club. Howard is retired and his job was doing illustration drawings. He had one in the Restorer last year of the model A carburetor, Zenith 1. Howard was good enough to give me a copy so that I could enclose it in the news letter. He also did one on the water pump so I will enclose it in the next news letter. He will be doing others and will give them to me to pass on to you. I hope they help and that you like the drawings.

Larry Caccese wrote that he has a repro back seat spring only and wants \$40.00 for it including shipping Call Larry at 805-968-3865 Pacific time. He sent to Arizona for garnish moldings. Says they look good to him. Write to Don Vagasky, 2220 Placita Perlozzo, Tucson, Ariz. 85748. There are different prices for long or short moldings. If you get Hemmings, it's in March and April issues. Larry answers Sid Gough's question about dovetails. He says that the deluxe female, the difference being the Vickie has a more V shaped opening while the deluxe has a more U opening. He tried it and it works. One other word Larry coined is Vickierestoring and this might be a good name for the news letter. Let me know what you think.

Both leatherback and steelback Victoria wood kits are available from Walt Bratton at Bratton's Antique Ford Parts, 11142 Hoffman Dr., Germantown, Md. 20874, 301-253-3037. It is not a stock item so when you order, expect a waiting time.

If you need help in making Vickie wood seat parts, contact Ed Hildwein. He's in the roster. Ed had his made by a cabinet maker in Boise, Idaho.

I would invite all of you to let me know if you have parts for sale and the price. I know most of you want parts so let me know and I'll put it in the news letter. A swap section is very good but this is all I have since the last letter.

I need feedback on what is a reasonable dues to operate the club? I had a few suggestions of \$10.00 and \$12.00 a year. While this will not be collected until the first of the year, I need your opinions. You will be informed of what is spent and on what. I do believe in letting the membership know what's going on.

Patti Jones and I are running for the office of Board Member of MAFCA. We would appreciate your help in getting votes for us. We need all the help we can get.

I hope to have a new letter out by November. Please, please, write to me. Let me know what you want this club to be. I need your help.

Until next time,

Charlie Viosca
