VOLUME 9

NUMBER 3

NEWSLETTER

September 27, 1994

I am sorry I am so late in getting this newsletter out to you. With the National Convention and several other pressing items, I am way behind. The bright spot is that I am slowly catching up.

This newsletter contains a new and up to date INDEX OF ALL PAST NEWSLETTERS, of the Victoria Association. Kay Lee did the index and all of us owe a debt of gratitude to her. Kay asked that you contact her direct if you have any corrections or comments.

THE INDEX:

The first column, is Parts Information. There will be some cross references here.

The second column, is whether there is a (D) Drawing, (SB) Service Bulletin or (P) Photograph on that subject along with something about it.

The third column, gives a Description of what that Parts Information pertains to.

The fourth column, is the Newsletter Date the item appears in. (Since the early newsletters did not have a volume number Kay couldn't use this feature).

The fifth column, is the Newsletter Page Number. This tells you the page number this information is on.

Kay will keep an update of the newsletters as they come out.

If you need to contact Kay, her address and phone are: Mrs. Kay Lee, 222 Elgin, Washington, IL 61571 - (309) 444-9840.

Through some connections from work, Kay is looking into the possibility of having the rear skirt stamped out of metal. If this does happen, they will be exactly as the original and not some lousy reproduction. As soon as I have any information (and possibly price) I will inform you in the next available newsletter.

In this regard, the fellow I know can make the mold and fiberglass rear skirts. This will be an alternate to the metal skirt if the cost is prohibitive.

If any of you are interested in a metal reproduction skirt, let Kay know. If this falls through, let me know if you want a fiberglass skirt. Take note of the fact that I have one person ready for one now.

I certainly hope all of you get some use from the index. An index is a valuable tool in going back in past newsletters to locate something you are searching for.

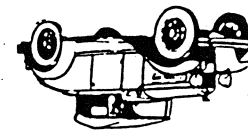

Until next time,

Charlie Vrosia

1 Monread lawns,
Naas,
Co. Kildare,
IRELAND.

19th august 1994

Mr Charlie Viosca,
11084 Windjammer
Frisco,
Texas 75034
U.S.A.

Dear Charlie,

I am writing to you following a letter I received from Martyn Griffiths of Merseyside in England. Martyn very kindly wrote to me to tell me about the Victoria Association which you run in the U.S.A.

I have a 1930 Model A Victoria and if possible I would like to join your Association.I have enclosed a \$20 bill to cover the cost of joining etc.

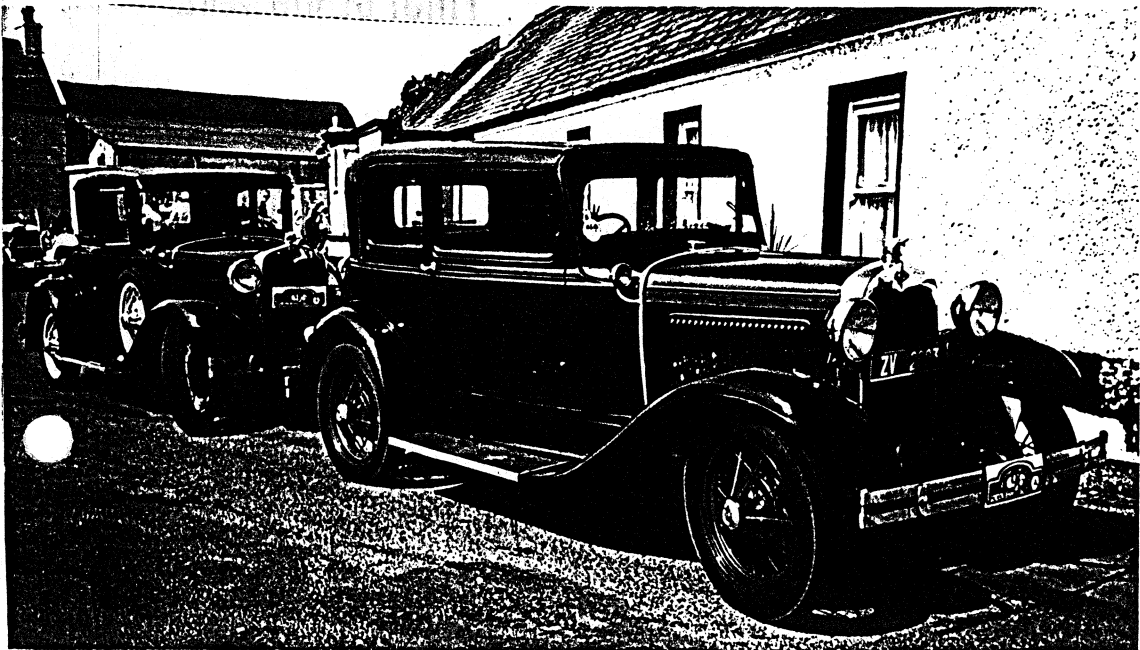

My Model A Victoria (photo enclosed) came from South Africa,I bought it during a visit there in 1988. I believe the car was built in Canada and shipped to South Africa. The previous owner (whose name I can't remember) had owned the car for many years and I believe that it was extensively rallied throughout the whole of Southern Africa.

This is the only Model A Victoria in Ireland at the moment as far as I know . I have to do some restoration work to the body and the interior of the car as it becoming quite shabby, mechanically it is very good.

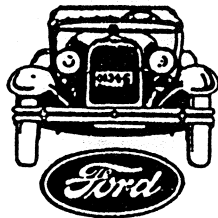

I look forward to hearing from you in the future,

Yours sincerely,

Sean
Sean O'Gorman.

1928 - 1931
